

# **National One-Health Hackathon 2025**

The National One Health Mission (NOHM) is organising IDEA: ONE: National One Health Hackathon 2025

The IDEA-ONE Hackathon aims to inspire innovation and collaboration among youth across India, aligned with the vision of the Government of India to build a healthy and resilient nation through the One Health approach.

Participants will form multidisciplinary teams—spanning medical, veterinary, environmental, engineering, agricultural, and social sciences—to design practical, scalable prototypes that strengthen India's preparedness and response to One Health challenges such as zoonotic diseases, antimicrobial resistance, climate-linked health risks, biosafety, and environmental health.

Youth are at the heart of India's innovation ecosystem. Their creativity, technological insight, and community orientation are vital for achieving sustainable health security. Through IDEA-ONE, the National One Health Mission seeks to empower students as changemakers, enabling them to co-create solutions that can directly impact India's health and development goals.

This is a golden opportunity for students to:

- Work in cross-sectoral teams and gain hands-on innovation experience
- Showcase their ideas before national experts and policymakers
- Compete for a prize pool of ₹3 Lakh and opportunities for incubation and mentorship

## Key Dates

- **Registration Opens October 11, 2025**
- **Registration Closes October 25, 2025**
- **Region-wise Presentations November 3, 2025**
- **Grand Finale (New Delhi) November 20, 2025**
